72 %

Work Experience

Solution Squares Company

Internship - As Flutter Developer

Dec 2022 – April 2023

Surat

- Worked on real-world Flutter projects, improving app performance by 20% with better state management and UI optimization.
- Tech Learned : Flutter — Dart — SQLite Local Database — Firebase Auth
- Integrated RESTful APIs and Firebase for smooth authentication, real-time sync, and better backend communication.
- Worked with senior developers in an Agile setup, speeding up development by 15% through quick problem-solving and debugging.

Generation Next

Flutter Developer

June 2023 – Present

Surat

- Worked on multiple Flutter projects per week, ensuring on-time delivery with high performance and scalability.
- Technical Skills Acquired : Flutter — Dart — SQLite — Firebase — Postman — Android Studio — Github
- Developed and delivered Flutter applications with advanced features like Google Firebase (Auth, Firestore, Realtime DB, OTP) and Google Maps API, ensuring seamless user experiences.
- Optimized UI/UX for cross-platform apps using state management (GetX, Provider) and responsive layouts, leading to a 30% improvement in app performance.
- Enhanced RESTful API integration with Laravel, PHP, Firebase, and SQLite to ensure secure authentication, real-time synchronization, and robust offline access.
- Lead end-to-end mobile app development, collaborating with designers and backend teams to ensure scalability and timely delivery, contributing to a 25% increase in development efficiency.

Skills

Languages: Dart, Java, C, C++

FrontEnd: Flutter

Databases: Firebase, SQLite

Developer Tools: Android Studio, VS Code, GitHub, Postman

Technical Skill: Flutter & Dart, Google Maps API, State Management, Google Firebase, SQLite & Local Storage, UI/UX Design, Restful API & HTTP Request

Soft Skill: Project Management, Version Control, Team Collaboration, Quick Learner, Problem Solver, Leadership Mindset

Projects

(you can view on click at Project Name)

Vakalat

- Developed Vakalat.com, a legal platform providing advocate listings, case updates, legal resources, and a seamless client-advocate interaction system.

Surat District Bar Association

- Built an app for Surat District Bar Association with a searchable Advocates List, Govt. Noticeboard, Events, Committee Details, Legal PDFs, and Advocate Profile Management.

Manjha

- Manjha, based on the Kolkata fish industry, features Add to Cart & Order Management, View Orders, an AI Model for Queries, Premium Access, Healthcare Products, Fish Feed, Live Comments, and more.

Express Courier

- Developed a feature-rich app for 4 Way Express Courier with Google Maps & Waze integration, real-time tracking, pickup management, and undeliverable item handling.

Projects I have worked on are currently live on the Play Store:

(clickable)

- **RB Cab**
- **Cashbook**
- **Expense Tracker**
- **Gym Management**
- **Fees Management**

Currently Working on Projects

- Currently working on international-level projects: **iCheck**, **Xinxx**, **Big Click**, **Xentry**, **CampusDekho**, **OLX Mini**, which focus on hotel bookings, police broadcasting, college managements, e-commerce and various other features to enhance user experience and functionality.
- In addition, I am also contributing to a project called **Fast Agreements**, which aims to provide a comprehensive solution for creating all types of agreements, complete with user-friendly graphical UI interfaces.
